PROFILE

Final-year B.E. Computer Science and Engineering student specializing in Artificial Intelligence and Machine Learning. Interested in AI, Machine Learning, Python, SQL, and Data Analytics. Enjoys learning new technologies, working on practical projects, and building meaningful technology solutions through internships, certifications, and hands-on experience.

TECHNICAL SKILLS

Languages / Tools	Python, SQL
AI / ML	Artificial Intelligence, Machine Learning, Classification, Basic ML Algorithms
Data	Data Analytics, Exploratory Data Analysis, Data Handling

INTERNSHIP EXPERIENCE

NLC India • Internship, SAP Introduction

Exposure to SAP concepts and project/system-related workflows.

EduTantr • Artificial Intelligence Intern

Practical exposure to Artificial Intelligence and Machine Learning concepts.

Astonish Infotech Pvt. Ltd. • Web Development Intern

Practical exposure to web development and development workflows.

PROJECTS

Iris Flower Classification • Machine Learning

Built a classification model on the Iris dataset to implement and evaluate machine learning classification techniques and model predictions.

Emotion Detection • AI / ML (Upcoming)

In-progress project focused on detecting human emotions using machine learning techniques.

CERTIFICATIONS

- Python Essentials — Cisco Networking Academy
- Yuva AI for All — FutureSkills Prime
- Exploratory Data Analysis — FutureSkills Prime

ACHIEVEMENTS

- 3rd Prize — Symposium, Paavai College

INTERESTS

Artificial Intelligence · Machine Learning · Python · Data Analytics · Exploring New AI Technologies · AI Training & Knowledge Sharing
